

CUBE JR

ecosmart⁺
Fire

A more compact version of the EcoSmart Fire Cube, Cube Jr delivers the same aesthetics and style, but in a smaller size.

The square-shaped fireplace is ideal for residences or commercial premises where space is at a premium. Available in white gloss and black gloss, the Cube Jr features a square fascia enhanced by a stainless steel shadowline, which maximises the look of the flame. A wind screen attached to the front of the fire both enhances safety and the overall look of the fireplace.

A freestanding, portable piece of furniture, the Cube Jr can be placed to suit a variety of interiors and is the ideal solution for apartments and houses. It might be smaller than its big brother, but it creates an equal statement.
