

EGG™

Arne Jacobsen designed the Egg™ for the lobby and reception areas in the Royal Hotel, in Copenhagen. The commission to design every element of the hotel building as well as the furniture was Jacobsen's grand opportunity to put his theories of integrated design and architecture into practice. The Egg is one of the triumphs of Jacobsen's total design - a sculptural contrast to the building's almost exclusively vertical and horizontal surfaces. The Egg sprang from a new technique, which Jacobsen was the first to use; a strong foam inner shell underneath the upholstery. Like a sculptor, Jacobsen strove to find the shell's perfect shape in clay at home in his own garage. Because of the unique shape, the Egg guarantees a bit of privacy in otherwise public spaces and the Egg - with or without footstool - is ideal for lounge and waiting areas as well as the home.

ARNE JACOBSEN 1902-1971

The cooperation between Arne Jacobsen and Fritz Hansen dates back to 1934. But it was in 1952 the break-through came with the Ant™. It was succeeded by the Series 7™ in 1955. This propelled his and Fritz Hansen's names into furniture history. Arne Jacobsen was very productive both as an architect and as a designer. At the end of the 50s Arne Jacobsen designed the Royal Hotel in Copenhagen, and for that project the Egg, the Swan™, the Swan™ sofa and Series 3300™. Arne Jacobsen was and is an admired and outstanding designer. While the significance of Arne Jacobsen's buildings was less appreciated, his furniture and other design work have become national and international heritage.
