

Guéridon Bas

Jean Prouvé, 1944

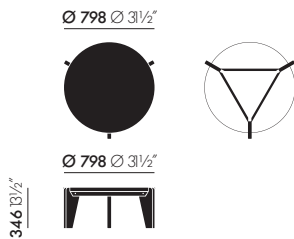

Guéridon Bas

In the early 1940s, Jean Prouvé began to work more extensively with wood. The Guéridon Bas table has a heavy top in oak veneer that rests on three solid oak legs. These elements are joined together by a construction made out of bent sheet metal. Guéridon Bas is also available in dark stained oak, harking back to an original version made of tropical wood called 'Table Africaine'.

Materials

- **Table top:** solid wood with oiled finish; natural oak, smoked oak or american walnut.
- **Base:** legs matched to table top, solid wood with oiled finish in natural oak, smoked oak or American walnut; connecting element: bent sheet metal, powder-coated in deep black (smooth finish).
